SEA-DOO BRP

MAKE YOUR DAY GREAT, WITH SEA-DOO.

The BRP Sea-Doo® brand always provides the thrills and excitement that turn carefree summer days into unforgettable experiences. Whether it's a family looking to play all weekend, friends spending endless hours wakeboarding or racers looking for every advantage on the course. No matter what, when you're on a Sea-Doo watercraft, you're in for an unbelievable day.

And Sea-Doo delivers those great days by leading the industry in cutting-edge design, engineering and innovation. From inventing the world's first on-water brake to creating a whole new category of watercraft with the Sea-Doo SPARK.™ BRP designs the best watercraft on the market, so you can experience the best days on the water. And 2016 is no different. Once again, Sea-Doo moves the industry forward by introducing a NEW Rotax® engine and advanced rider ergonomics. It's what creates even more fun on the water, day after day – year after year.

#1 WATERCRAFT BRAND IN THE WORLD

- ✓ **BEST IN INNOVATION**
  with a long list of firsts: On-water brake, Suspension system, iControl® technologies and more.

GET THE SEA-DOO WATERCRAFT THAT'S RIGHT FOR YOU.

Choose from the playful and accessible Sea-Doo SPARK, the powerful RXP®-X®, RXT®-X, or GTX[1] Limited 300 now with a NEW 300-hp Rotax 1630 ACE™ engine, or any of the exciting models in between. Find the Sea-Doo watercraft that's right for you and make the most of every single day on the water.

DISCOVER THE SEA-DOO DIFFERENCE AT SEA-DOO.COM

Use the helpful online tool at sea-doo.com/help-me-choose to learn more about selecting the right ride for you.

PERFORMANCE: TAKE YOUR RIDE FROM FIRST-RATE TO FIRST PLACE.

Now featuring the most powerful Rotax engine ever – the 300-hp Rotax 1630 ACE engine. These are the ultimate performance watercraft, with race-inspired features and the Ergolock™ system that helps you become one with the machine, enabling you to ride with even more confidence and control. For more, see page 10.

LUXURY: THE FINEST FEATURES, THE BEST TECHNOLOGY, THE ULTIMATE RIDE.

The Sea-Doo luxury segment provides NEW ergonomic seating and exclusive suspension options for the ultimate comfort every rider and passenger can enjoy. And for those craving more power than ever, there's the latest edition of the GTX Limited with the NEW Rotax 1630 ACE engine. For more, see page 20.

TOW SPORTS: THE ONLY WATERCRAFT IN THE WORLD DESIGNED EXCLUSIVELY FOR WATERSPORTS ENTHUSIASTS.

Uniquely outfitted to deliver the unmatched thrill and heart-racing excitement of tow sports, and loaded with exclusive features, like a Ski mode, ski pylon and board rack. For more, see page 26.

RECREATION: CHOOSE MORE VERSATILITY FOR MORE PLEASURE.

Nimble rides that offer a ton of standard features, great stability and versatility for all of your favorite recreational activities. They also offer more storage than any watercraft in this category. For more, see page 28.

REC LITE: AFFORDABLE. FUN. IN A CLASS OF ITS OWN.

The easiest way for your family to start enjoying fun on the water is the playful, compact, easy to own and colorful Sea-Doo SPARK. With numerous customizable features and now featuring three NEW, bold colors. No one else offers anything like it. For more, see page 34.

THE NEXT LEVEL OF SEA-DOO INNOVATION IS HERE.

UNBEATABLE ADRENALINE RUSH WITH THE ALL-NEW ROTAX 1630 ACE ENGINE DELIVERING 300 HP.

MORE POWER

UNMATCHED EFFICIENCY

AND THE INDUSTRY'S BEST POWER-TO-WEIGHT RATIO[1].

The NEW Rotax 1630 ACE engine incorporates technology to generate 15% more power with only 9% more displacement, packing an amazing amount of punch into an engine of its size and weight. The compact size of that high-performance engine gives Sea-Doo engineers more design freedom to develop exclusive ergonomic improvements.[2]

BY COMBINING THAT POWER WITH THE NEW ERGOLOCK YOU GET MORE CONTROL AND EVEN MORE CONFIDENCE, SO YOU CAN PUSH YOUR LIMITS EVEN FURTHER.

[1] Based on engine power disclosed to EPA in kW (RXP-X 300) and information on manufacturer's websites as of publication date.
[2] All technical comparisons are made to the Rotax 1503 HO engine.

UNMATCHED COMFORT AND CONTROL WITH THE EXCLUSIVE SEA-DOO ERGOLOCK.

ERGOLOCK SEAT

1 The narrow seat with deep knee pockets results in a more natural and comfortable riding position – legs closer together and back straighter. The advantage of using your legs to lock in and hold on to the machine reduces upper body fatigue, improves control in any condition and makes you feel like one with the machine. (Available on RXT, RXP-X, GTX and WAKE™ PRO models.)

2 Exclusive to the GTX models, the stepped seat design gives passengers a better view of the action and their surroundings. Additional lateral supports beyond the lumbar area increase passengers' comfort and stability by helping prevent side-to-side movement during the ride.

ERGOLOCK SYSTEM

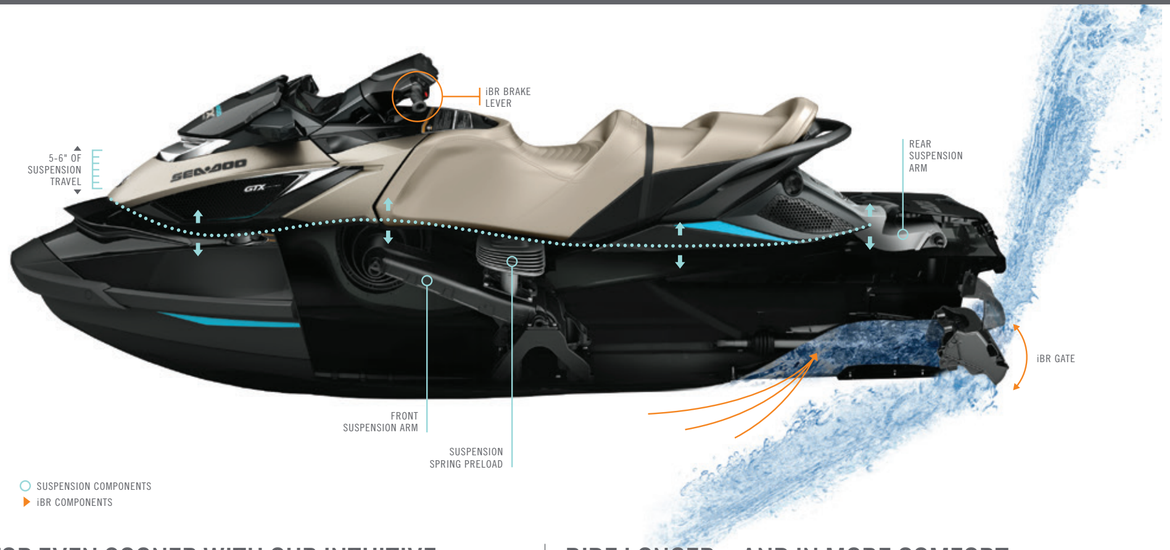
In addition to the Ergolock seat, the exclusive design includes angled footwell wedges and Adjustable Ergonomic Steering (A.E.S.™) for a complete rider-centric experience. (Available on RXT-X and RXP-X models.)

3 The angled footwell wedges position the knees naturally near the narrow portion of the seat, taking pressure off the ankles.

4 The A.E.S. allows the rider to adjust the width and angle of the handlebar for a customized fit.

And the whole system works together to allow the rider to lock in with his legs, producing less fatigue and more control when turning or cruising.

SEA-DOO INNOVATION LEADS THE WAY.



STOP EVEN SOONER WITH OUR INTUITIVE SECOND GENERATION ON-WATER BRAKE.

iBR The Intelligent Brake and Reverse (iBR®) system, now in its eighth year on Sea-Doo watercraft, has been refined for even better performance, allowing you to stop nearly 160 feet (48.75 m) sooner.[1] Just pull the left lever on the handlebar to activate it. Nothing could be easier. It's proven technology that has been recognized since 2009 by the U.S. Coast Guard for improving boating safety.

Sea-Doo using iBR vs. without using iBR

[1] *Based on BRP internal testing.*

RIDE LONGER – AND IN MORE COMFORT – WITH THE INDUSTRY'S ONLY SUSPENSION.

Only the exclusive Sea-Doo suspension system lets you ride longer and in more comfort – in all water conditions. Choose from 3 options to fit your riding style.

iS **Intelligent Suspension:** Calibrates automatically based on weight and water conditions. (Available on the GTX Limited iS® 260 model, page 22.)

aS **Adjustable Suspension:** Manually adjustable, using superior-grade, high-performance shocks made by FOX.℠ (Available on the RXT-X aS™ 260 model, page 14.)

S **Suspension:** Manually adjustable so you can make each ride stiffer or softer. (Available on the Sea-Doo GTX S™ 155 model, page 24.)

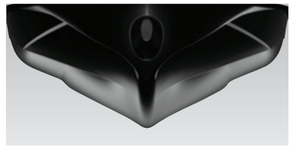
YEAR AFTER YEAR.

PRECISION HULL DESIGN TO COMPLEMENT EVERY RIDING STYLE.

SPARK Hull

GTI Hull

S³ Hull



T³ Hull

SPARK HULL

A shorter, lighter platform with flatter V-shaped hull, it's easy to handle and ideal for flatter water and small chop. Can still be used in rougher conditions for an exciting and challenging ride. (Available on all SPARK models.)

GTI HULL

A medium-sized platform with a moderate V-shaped hull. Forgiving and nimble for a versatile ride in smooth and moderate water conditions. (Available on the GTS™ 130, GTI™, WAKE 155 and GTR™ 215 models.)

S³ HULL®

Its stepped design is the first – and only – of its kind. With a longer platform and rough-water-inspired, deep V shape, it is stable, predictable and remains glued to the water in choppy conditions. (Available on the GTX, RXT and WAKE PRO 215 models.)

T³ HULL™

Exclusive to the Sea-Doo RXP-X 300, it cuts effortlessly through water. Round edges in the front allow for more precise cornering and let you lean in at a sharper angle. (Available on the RXP-X 300 model.)

GREATER ENGINE PROTECTION WITH CLCS.

CLCS Only Sea-Doo watercraft feature a Closed-Loop Cooling System (CLCS). It uses coolant to keep the engine running at ideal temperatures and also blocks out corrosive saltwater and debris from the engine.

BETTER GRIP WITH THE NEW PALM REST

NEW HANDLEBAR PALM REST

Supports the palm and helps position the wrist to provide more comfort and give the driver a better grip. (Available on all models.)

ENJOY VERSATILITY, PRECISION AND FUEL EFFICIENCY.

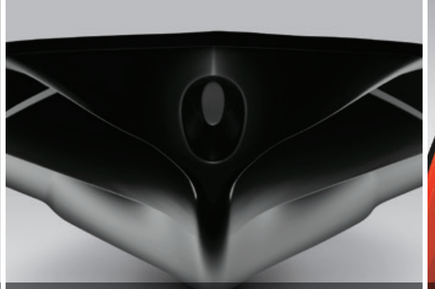
iTC Intelligent Throttle Control (iTC™) offers specific driving modes for unique experiences and the most advanced throttle system on a watercraft, giving you better fuel economy and lower operating costs.

- **ECO™ Mode:** Exclusive feature that generates up to 46% improved fuel efficiency.[2]
- **Cruise Control:** Activity-specific controls. Set your speed for cruising, tow sports, navigating no-wake zones and more.
- **Touring and Sport Modes:** Set different throttle responses to suit your riding style with the touch of a button.
- **Ski Mode:** Choose from 5 personalized acceleration profiles for a perfect launch and consistent pace during every ride. It helps make every rider an expert in no time.

[2] *Based on internal testing. Fuel consumption varies per model and engine package.*

Professional drivers shown under ideal/controlled conditions. Do not attempt. Not all riding conditions are appropriate for inexperienced or beginner riders.

ROTAX 1630 ACE ENGINE – It is the most powerful engine on a Sea-Doo watercraft. Proven ACE (Advanced Combustion Efficiency) technology and industry-best power-to-weight ratio[1] delivers ultimate performance.



T³ HULL – Innovative, multistage design with extreme hard chines in the back and soft chines in the front. Allows for more precise cornering, enhances lean-in, cuts water and tracks better; extremely responsive.

ERGOLOCK SYSTEM – A narrow racing seat, specially angled footwell wedges and Adjustable Ergonomic Steering (A.E.S.) allow you and the machine to become one. Locking in your body provides even better handling and control.

RXP-X 300

iTC | iBR | T³ | CLCS | ECO

RIDE WITH THE WINNING ADVANTAGE OF THE INDUSTRY'S BEST POWER-TO-WEIGHT RATIO.[1]

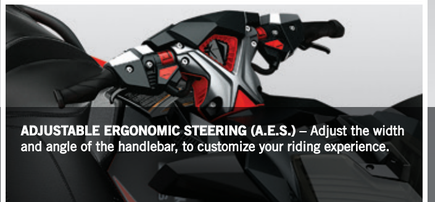
The ultimate top-of-the-line racing watercraft combines power, handling and control like nothing else on the water. And with the NEW 300-hp Rotax 1630 ACE engine, nothing else will come close to you on the buoy course. Use the Ergolock system to leverage leg muscles for gripping the watercraft and harder cornering. The deep V shape of the T³ Hull will cut through the water precisely, so you can lean deeper into turns. This machine does much more than push the limits of race riding. It pushes you to the front of the pack.

COLOR OPTIONS: **NEW** Lava Red & Monolith Black Satin **NEW** White & Dayglow Yellow

[1] Based on engine power disclosed to EPA in kW (RXP-X 300) and information on manufacturer's websites as of publication date.

ADJUSTABLE REAR SPONSONS – An efficient design that improves lateral stability. Three-position adjustable for your skill level and riding environment.

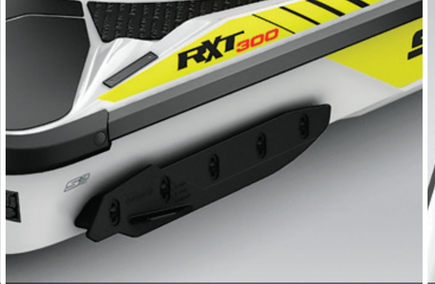
ADDITIONAL COLOR OPTION: LAVA RED & MONOLITH BLACK SATIN



ADJUSTABLE ERGONOMIC STEERING (A.E.S.) – Adjust the width and angle of the handlebar, to customize your riding experience.

SEA-DOO RIDING BOOTS AND AMPHIBIOUS RIDING GOGGLES (OPTIONAL) – The strong, lightweight goggles float and are designed to conform to your face while offering 100% UV protection. High-cut neoprene boots provide added comfort, grip and protection.

ROTAX 1630 ACE ENGINE –The most powerful engine on a Sea-Doo, ever. Delivering a breathtaking 300 hp and powered by proven ACE (Advanced Combustion Efficiency) technology for ultimate performance.



ADJUSTABLE REAR SPONSONS – An efficient design that improves lateral stability. Three-position adjustable for your skill level and riding environment.

ERGOLOCK SYSTEM – A narrow racing seat, specially angled footwell wedges and Adjustable Ergonomic Steering (A.E.S.) allow you and the machine to become one. Locking in your body provides even better handling and more control.

iTC | iBR | S³ | CLCS | ECO

RXT-X 300

LOCK IN AND EXPERIENCE THE RUSH OF MORE POWER AND MORE CONTROL THAN EVER BEFORE.

Built for large bodies of water, rougher conditions and riders who never let that slow them down. Now with the Rotax 1630 ACE engine and exclusive Ergolock system that lets you ride longer with less fatigue. Your legs "lock in" to the machine for added control, while letting you relax your upper body. Experience performance riding with more confidence to push your limits and take control of the power.

COLOR OPTIONS: **NEW** Lava Red & Monolith Black Satin **NEW** White & Dayglow Yellow

TILT AND ADJUSTABLE ERGONOMIC STEERING (A.E.S.) – Tailor it to your personal riding preference and position, so ergonomics work for you on the water. The fully adjustable handlebar let you customize your riding experience even further.

ADDITIONAL COLOR OPTION: LAVA RED & MONOLITH BLACK SATIN

X-GAUGE WITH BOOST INDICATOR – X-Gauge with additional functions such as time/distance to empty, top/average speed/RPM, lap timer and engine temperature.

FORCE PULLOVER PFD AND MEN'S X-TEAM NEOPRENE RIDING JACKET (OPTIONAL) – Anatomical cut with large armholes and strategically placed mesh drain panels for riding comfort. The versatile Riding Jacket can be worn over a Personal Flotation Device (PFD) or separately.

ADJUSTABLE SUSPENSION (aS) – High-performance adjustable suspension uses a superior-grade, high-performance shock made by FOX,™ with full preload and compression manual adjustability.

ADJUSTABLE TRIM TABS – Designed to fine-tune the attitude of the watercraft and provide better parallelism to the water. Five distinct positions provide ample adjustment range to cover all water conditions.

ERGOLOCK SEAT – A narrow racing seat places your knees closer together in a natural riding position while improving the transition into standup riding.

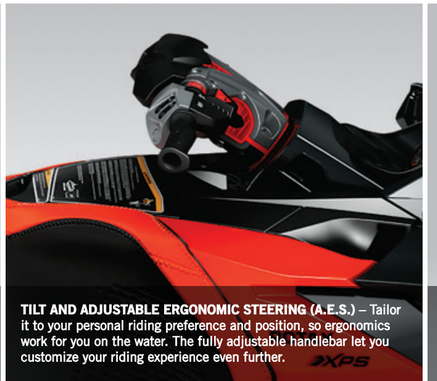
iTC / iBR / aS / S³ / CLCS / ECO

RXT-X aS 260

THE INDUSTRY-EXCLUSIVE SUSPENSION GENERATES THE BEST OFFSHORE PERFORMANCE.

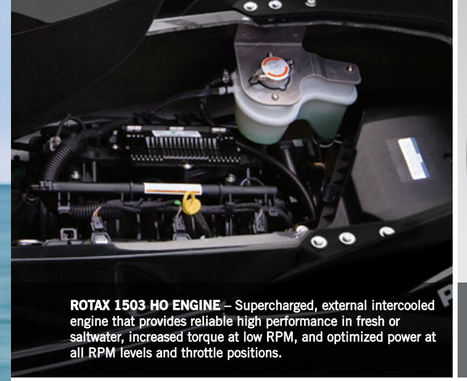
The only offshore riding watercraft with a suspension system, the RXT-X aS 260 lets you manually adjust the suspension to dictate how it will respond to water conditions. It provides more than just comfort – it lets you stay focused, relaxed and ride longer with less fatigue. Now in conjunction with our Ergolock seat and fully adjustable handlebar, this is performance riding that prepares you for large bodies of water.

BOW STABILIZER – Provides lateral stability in rougher water conditions, plus anti-dive to reduce bow diving.



TILT AND ADJUSTABLE ERGONOMIC STEERING (A.E.S.) – Tailor it to your personal riding preference and position, so ergonomics work for you on the water. The fully adjustable handlebar let you customize your riding experience even further.

SEA-DOO CARRIER DRY STORAGE BAG BY OGIO® (OPTIONAL) – Completely waterproof with plenty of storage for stowing away your gear and keeping it dry.



ROTAX 1503 HO ENGINE – Supercharged, external intercooled engine that provides reliable high performance in fresh or saltwater, increased torque at low RPM, and optimized power at all RPM levels and throttle positions.

HIGH-PERFORMANCE VTS™ – Easily accessible Variable Trim System on the handlebar lets you fine-tune handling based on rider preference, water conditions and number of passengers.

ERGOLOCK SEAT – A narrow racing seat places your knees closer together in a natural riding position while improving the transition into standup riding.

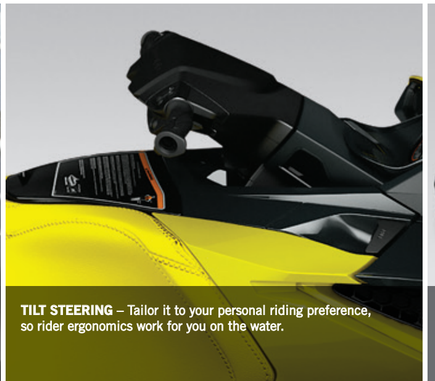
iTC / iBR / S³ / CLCS / ECO

RXT 260

POWER AND PERFORMANCE, NOW MORE ACCESSIBLE THAN EVER.

Now with an improved riding position and three times more storage to give you a better riding experience – along with the performance essentials of higher-priced models. You get control, precision and handling, plus great horsepower for this price level. And the stepped S³ Hull means you'll stay glued to the water. The RXT 260 is calibrated for pure performance riding.

MORE STORAGE – Three times bigger than before thanks to a larger glove box combined with the redesigned under-hood storage for 42.8 US gallons (162 liters) of total storage. Plus, it still offers a watertight compartment.



TILT STEERING – Tailor it to your personal riding preference, so rider ergonomics work for you on the water.

COVER (OPTIONAL) – Its strapless design offers easy installation, and the solution-dyed fabric increases UV resistance while making it simple to handle. The patented air-release ventilation system is designed for trailering.

SUPERCHARGED ENGINE – Offers more power than the closest competition!

[1] Source: Air Resources Board website.

FRONT STORAGE – More storage than the closest competitive model for stowing away your gear[2]

[2] Source: Manufacturer's website. Based on similarly priced models.

HIGH-PERFORMANCE VTS – Easily accessible Variable Trim System on the handlebar lets you fine-tune handling based on rider preference, water conditions and number of passengers.

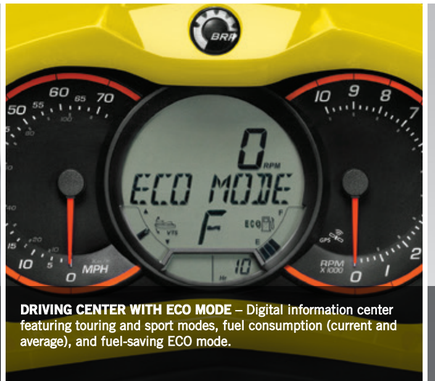
iTC / iBR / CLCS / ECO

GTR 215

NIMBLE PERFORMANCE. PEAK VALUE.

This is the best value of any performance watercraft package. And it comes with a supercharged engine that offers more power than the competition. The GTR 215 model also gives you better handling and versatility. That's because it can be tuned easily with aftermarket accessories. You'll also stay dryer than on other competitive models thanks to the anti-splash design in its hull.

iBR (INTELLIGENT BRAKE AND REVERSE) SYSTEM – Exclusive to Sea-Doo watercraft. Stop close to 160 feet (48.75 m) sooner[3] with our second generation on-water brake. For more control and effortless docking. *[3] Based on BRP internal testing.*



DRIVING CENTER WITH ECO MODE – Digital information center featuring touring and sport modes, fuel consumption (current and average), and fuel-saving ECO mode.

FRONT STORAGE TRAY (OPTIONAL) – The 3.2 US gallons (12 L) capacity offers convenient and useful storage space.

GTX Limited 300 model shown

ROTAX 1630 ACE ENGINE – It is the most powerful engine ever available on a Sea-Doo watercraft. Powered by proven Advanced Combustion Efficiency technology. (Available on the GTX Limited 300 model.)

ERGOLOCK SEAT WITH STEPPED DESIGN – The narrow seat places your knees closer together in a natural riding position, while the stepped seat design provides more lateral support and stability for you and your passengers.

MORE STORAGE – Pack all your gear and keep it dry, thanks to the watertight front storage. Plus, enjoy the huge NEW storage compartment below it. It's more than three times bigger than ever before.

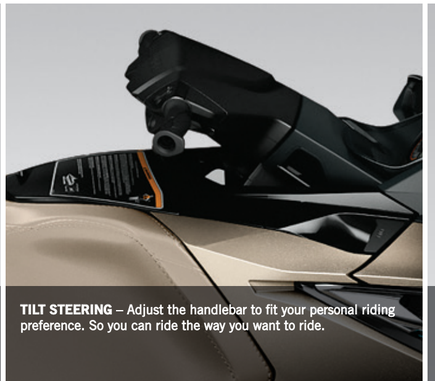
iTC | iBR | S³ | CLCS | ECO

GTX LIMITED 300 & GTX LIMITED 215

THE HEIGHT OF LUXURY COMBINED WITH HIGH PERFORMANCE.

These luxury machines provide comfort, countless unique features and two engine options for a riding experience that meets, and exceeds your needs. The GTX Limited 300 model includes the remarkable power of the NEW Rotax 1630 ACE engine, the most powerful engine ever featured in a Sea-Doo watercraft. Both models include the S³ Hull for stable, predictable performance in rougher conditions, and our NEW Ergolock seat with stepped design provides even more comfort for you and your passengers.

EXCLUSIVE LIMITED PACKAGE – Watercraft cover, removable dry bag, safety kit and exclusive coloration. Plus, depth finder and speed ties, glove box organizer, water temperature display, high-performance VTS and more.



TILT STEERING – Adjust the handlebar to fit your personal riding preference. So you can ride the way you want to ride.

ELEMENT RIDING SUIT (OPTIONAL) – Separate jacket and pants to wear under your Personal Flotation Device (PFD) to keep you warm during cooler weather. The material is fast drying, breathable and offers good wind protection.

iS (INTELLIGENT SUSPENSION) – The hull moves independently of the upper deck, isolating rider and passengers from the impact of rough water.

ERGOLOCK SEAT WITH STEPPED DESIGN – The narrow seat places your knees closer together in a natural riding position, while the stepped seat design provides more lateral support and stability for you and your passengers.

EXCLUSIVE LIMITED PACKAGE – Watercraft cover, removable dry bag, safety kit and exclusive coloration. Plus, depth finder and speed ties, glove box organizer, water temperature display, high-performance VTS and more.

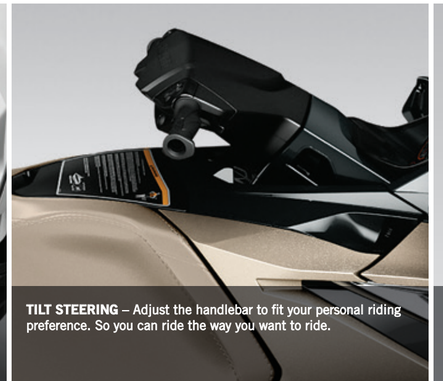
iTC / iBR / iS / S³ / CLCS / ECO

GTX LIMITED iS 260

ULTIMATE COMFORT COMES STANDARD.

Meet the most comfortable luxury watercraft on the market. Only the GTX Limited iS 260 comes standard with our industry-exclusive Intelligent Suspension (iS). It automatically responds to water conditions to provide maximum stability and comfort. All you have to do is ride. With the NEW Ergolock seat, plus tilt steering, cruise control and much more, it all adds up to the ultimate in comfortable luxury.

WATERTIGHT REMOVABLE STORAGE BIN – Keep your gear safe and dry with ample storage space.



TILT STEERING – Adjust the handlebar to fit your personal riding preference. So you can ride the way you want to ride.

AIRFLOW PFD (OPTIONAL) – Enhanced fit with lumbar comfort zone, strategically placed mesh drain panels and interior EVA molding that keeps the Personal Flotation Device (PFD) surface away from the skin.

GTX 155 model shown

S SUSPENSION – Manually adjustable suspension to give you a smooth ride in all water conditions, it features 5.5 inches (13.97 cm) of travel. (Available on the GTX S 155 model.)

ERGOLOCK SEAT WITH STEPPED DESIGN – The narrow seat places your knees closer together in a natural riding position, while the stepped seat design provides more lateral support and stability for you and your passengers.

FRONT STORAGE WITH WATERTIGHT REMOVABLE BIN – Plenty of room for stowing away your gear and keeping it dry. The GTX 155 also offers additional storage below the watertight removable bin.

iTC | iBR | S | S³ | CLCS | ECO

GTX S 155 & GTX 155

LUXURIOUS VALUE: ALWAYS IN STYLE.

Get luxurious comfort and convenience for an unbeatable value. With features like our Ergolock seat with stepped design that places both rider and passengers in a more natural, relaxed position. There's more storage for all your gear on the GTX 155, and the GTX S 155 offers true suspension for a smooth ride in all conditions. Luxury is no longer out of reach. It's right here, just begging you to go for a ride.

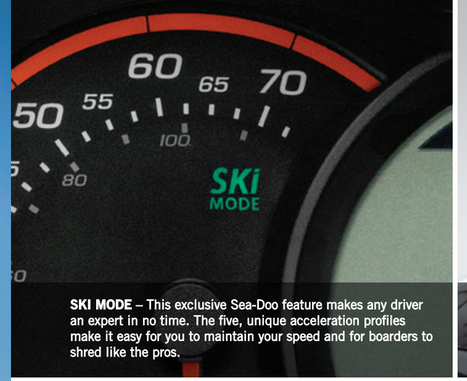
[1] *GTX S 155 model.*

TILT STEERING – Fit it to your personal riding preference, so rider ergonomics work for you on the water.

CRUISE CONTROL AND NEW PALM REST – Set your speed for cruising, tow sports, navigating a no-wake zone and more. The NEW handlebar palm rest supports your palm and helps position your wrist to provide more comfort and give you a better grip.

SNAP-IN FENDERS (OPTIONAL) – Protect your watercraft with easy-to-install and remove fenders designed specifically for Sea-Doo watercraft. Requires Snap-in Fenders installation kit.

WAKE 155 model shown



SKI MODE – This exclusive Sea-Doo feature makes any driver an expert in no time. The five, unique acceleration profiles make it easy for you to maintain your speed and for boarders to shred like the pros.

3-POSITION SKI PYLON – Retractable so it stows away when not in use. Features spotter handgrips and rope storage. (Optional Speed Tie shown.)

ERGOLOCK SEAT – The sculpted seat is narrow between the legs and slightly higher in the rear. For more comfort when touring and more confidence when cornering. (Available on the WAKE PRO 215 model.)

WAKE PRO 215 & WAKE 155

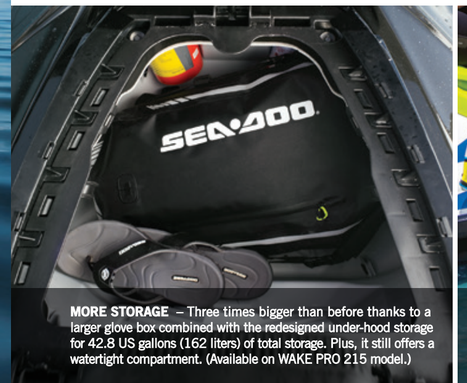
iTC | iBR | S³ | CLCS | ECO

THE ONLY WATERCRAFT DESIGNED SPECIFICALLY FOR TOW SPORTS.

If you're looking to spend your days catching some air, carving some wakes and pumping some adrenaline, then we've got your ride. Both Sea-Doo WAKE models include a retractable ski pylon with a high tow point that keeps the rope out of the water and keeps you in the wake. Plus, they feature our exclusive Ski mode and a removable board rack. The WAKE PRO 215 takes thrilling tow sports fun even further with a supercharged engine; the exclusive S³ Hull for added stability when towing wakeskaters and wakeboarders; NEW, larger storage area and more comfortable ergonomics. These watercraft are the reason Sea-Doo is the official partner of the NIKE℠ Wakeskate Team.

COLOR OPTIONS: ◑ **NEW** White & Denim Blue Satin (WAKE PRO 215) ◑ **NEW** White & Belize Blue (WAKE 155)

[1] *WAKE PRO 215 model.*



MORE STORAGE – Three times bigger than before thanks to a larger glove box combined with the redesigned under-hood storage for 42.8 US gallons (162 liters) of total storage. Plus, it still offers a watertight compartment. (Available on WAKE PRO 215 model.)

BOARD RACK – Comes standard. Removable; carries your board on the side to get to your favorite riding spot.

WAKE PRO 215: WHITE & DENIM BLUE SATIN

SHOCK TUBE (OPTIONAL) – Protects passengers from any ski rope kick-back and keeps ski ropes away from impeller. Made with a durable nylon cover over closed-cell foam.

LIMITED PACKAGE – Includes watercraft cover, removable dry storage bag, safety kit and exclusive coloration for this model. Other package features include time/distance to empty, altitude and high-performance VTS.

CRUISE CONTROL – An activity-specific cruise control lets you set your speed for cruising, tow sports, navigating a no-wake zone and more.

HIGH-PERFORMANCE VTS – Easily accessible Variable Trim System on the handlebar lets you fine-tune handling based on rider preference, water conditions and number of passengers.

iTC / iBR / CLCS / ECO

GTI LIMITED 155

ULTIMATE VERSATILITY AND FUN.

The Sea-Doo GTI Limited 155 offers exclusive features in the Limited package, like unique coloration, watercraft cover and high-performance VTS. You also get a watercraft with the largest storage space in its category and the proven Sea-Doo Intelligent Brake and Reverse (iBR) system.

SKI TOW EYE – Pull your friends and family with this easy setup that lets you dive into tow sports.

TOURING SEAT – Plush, ergonomic design provides maximum comfort and support for driver and passenger.

SEA-DOO SPEED TIE (OPTIONAL) – Fully integrated and retractable watercraft mooring system provides seven feet of retractable dock line that effortlessly stows out of site when not in use.

GTI SE 130 model shown in Black & White

TOURING SEAT – Plush, ergonomic design provides maximum comfort and support for driver and two passengers.

REBOARDING STEP – Makes it easy to get back on after having fun in the water. Fold-down design.

iBR (INTELLIGENT BRAKE AND REVERSE) SYSTEM – Exclusive to Sea-Doo watercraft. Stop close to 160 feet (48.75 m) sooner[1] with our second generation on-water brake. For more control and effortless docking.

[1] *Based on BRP internal testing.*

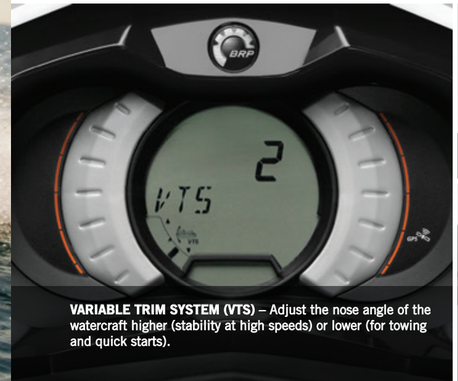
iTC | iBR | CLCS | ECO

GTI SE 155 & GTI SE 130

KEEP YOUR FAMILY RIDING LONGER WITH ADDED FEATURES AND EVEN MORE VERSATILITY.

Year after year, families choose the Sea-Doo GTI SE models to help them get all the fun they want from their time on the water. The exclusive Intelligent Brake and Reverse (iBR) system lets them ride with added peace of mind and increased confidence and control, especially when docking. And features like the touring seat, reboarding step and VTS add even more versatility – and endless family fun.

COLOR OPTIONS: **NEW** Black & White (GTI SE 130) Maldives Blue & White



VARIABLE TRIM SYSTEM (VTS) – Adjust the nose angle of the watercraft higher (stability at high speeds) or lower (for towing and quick starts).

ADDITIONAL COLOR OPTION: MALDIVES BLUE & WHITE

ECO MODE – Automatically determines the most economical power delivery for the greatest fuel economy.

RETRACTABLE SKI PYLON (OPTIONAL) – High-rise pylon keeps rope out of water. Features built-in spotter grab handles and retracts out of the way when not in use.

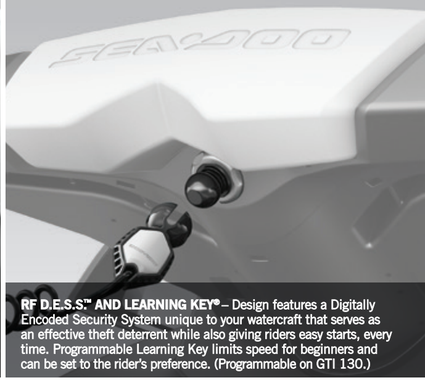
GTI 130 model shown in White & Maldives Blue

iBR (INTELLIGENT BRAKE AND REVERSE) SYSTEM – Exclusive to Sea-Doo watercraft. Stop close to 160 feet sooner (48.75 m)[1] with our second generation on-water brake. For more control and effortless docking. (Available on the GTI 130 model.)

[1] Based on BRP internal testing.

FRONT STORAGE – The largest storage space in its category[2] (30.8 US gallons / 116.6 L) lets you store plenty of gear.

[2] Manufacturer's website. Based on similarly priced models.



RF D.E.S.S.™ AND LEARNING KEY® – Design features a Digitally Encoded Security System unique to your watercraft that serves as an effective theft deterrent while also giving riders easy starts, every time. Programmable Learning Key limits speed for beginners and can be set to the rider's preference. (Programmable on GTI 130.)

iTC | iBR | CLCS | ECO

GTI 130 & GTS 130

VERSATILITY FOR THE WHOLE FAMILY. WITH A SURPRISINGLY FUN STICKER PRICE.

Introduce your family to great days on the water, and take advantage of standard features often found on higher-priced models. Choose from multiple operating modes to match riding preference and generate optimal fuel efficiency. The GTI 130 is also available with the improved second generation Intelligent Brake and Reverse (iBR) system.

COLOR OPTIONS: White & Maldives Blue (GTI 130) White & Manta Green (GTI 130) White & Orange Crush (GTS 130)

[1] GTI 130 model.

DRIVING CENTER WITH ECO MODE – Automatically determines the most economical power delivery for the greatest fuel economy.

HANDLEBAR WITH NEW PALM REST – Supports the palm and helps position the wrist to provide more comfort and give the driver a better grip.

ADDITIONAL GTI 130 COLOR OPTION: WHITE & MANTA GREEN

GTS 130 COLOR OPTION: WHITE & ORANGE CRUSH

Chili Pepper, Blueberry and Key Lime SPARK watercraft shown with optional accessories.

POLYTEC™ – Exclusive to Sea-Doo, this low-density, high-impact composite material provides just the right combination of elasticity of polypropylene to absorb impact and rigidness of long fiber glass to ensure structural integrity.

EXOSKEL™ – Minimalist architecture that keeps only the essential structural parts in the front section. It reduces weight while creating a strong, modern and cutting-edge design that defines the unique and playful nature of the Sea-Doo SPARK.

ROTAX 900 ACE / 900 HO ACE ENGINES – The Sea-Doo SPARK Rotax 900 ACE engine is the most fuel-efficient on the market[1] using just 1.94 US gallons (7.34 L) of fuel per hour. The higher-horsepower, faster-accelerating Rotax 900 HO ACE uses just 2.4 US gallons (9 L) per hour.

iTC / iBR / CLCS

SPARK

UNBEATABLE FUN FROM THE MOST POPULAR AND ACCESSIBLE WATERCRAFT.

The most fun and accessible watercraft you can buy today. Sea-Doo SPARK exists in a class of its own – the most affordable, fuel efficient[1] and easiest to own watercraft on the market. Its compact, lightweight design – the lightest in the industry – makes it playful to ride and easy to maneuver, while also being easy to tow and fit in most garages. Choose from five attention-grabbing colors and numerous customization options.

COLOR OPTIONS: **NEW** Chili Pepper **NEW** Blueberry **NEW** Key Lime Vanilla Pineapple

[1] Based on BRP internal testing and information on manufacturer's websites.
[2] iBR and Convenience Package Plus optional with Rotax 900 HO ACE engine.

ADDITIONAL SPARK COLOR OPTION: VANILLA

ADDITIONAL SPARK COLOR OPTION: PINEAPPLE
(iBR and Convenience Package Plus shown.)

iBR (INTELLIGENT BRAKE AND REVERSE) SYSTEM – Stop your watercraft with the squeeze of a lever for more safety and effortless docking. iBR and Convenience Package Plus optional with the Rotax 900 HO ACE engine.

TOW PRO (OPTIONAL) – Three accessories in one: a tow pylon, spotter handle and equipment rack. Add more fun to pulling wakeboarders, wakeskaters and tubers thanks to a higher tow point. (Available on SPARK 3up.)

PICK YOUR ENGINE

2

Rotax 900 ACE[1] – The most fuel-efficient engine on the market[2] allows the Sea-Doo SPARK to reach a top speed of 40 mph (64 km/h).[3]

Rotax 900 HO ACE – A more powerful engine with better acceleration allows the Sea-Doo SPARK to reach close to 50 mph (80 km/h).[3]

ADD iBR AND CONVENIENCE PACKAGE PLUS[4]

3

Intelligent Brake and Reverse (iBR) – With our exclusive Intelligent Brake and Reverse (iBR) system you can stop sooner than other watercraft. Plus, get added maneuverability and simple docking.

Convenience Package Plus – Add great value with three of our most popular optional features. Get the Front Storage Bin Kit and bring along your personal belongings, make reboarding easier with the Sea-Doo Step and get the RF D.E.S.S. key that helps prevent unauthorized use and theft.

PICK YOUR COLOR

4

Choose from NEW Chili Pepper, NEW Blueberry, NEW Key Lime, Vanilla and Pineapple colorations and personalize your Sea-Doo SPARK watercraft to match your taste.

PERSONALIZE IT

5

Select fully integrated accessories and one of our large selection of Attitude Graphic Kits that will make your Sea-Doo SPARK unique to you. It's a unique customization nobody else offers.

[1] Featured exclusively on the Sea-Doo SPARK 2up without Intelligent Brake and Reverse (iBR) and Convenience Package Plus.
[2] Based on BRP internal testing and information on manufacturer's websites. [3] Based on BRP internal testing. Actual top speed may vary depending on loading and other conditions. [4] iBR and Convenience Package Plus is not available on the SPARK 2up with the Rotax 900 ACE engine.

RIDING GEAR ACCESSORIES GENUINE PARTS

MAKE EXCITEMENT PART OF YOUR COMPLETE LIFESTYLE.

Just because you want riding gear that will help you push the limits of excitement on your personal watercraft doesn't mean you can't make a personal statement about who you are when you're enjoying life away from the water. Own the best of both worlds with riding gear and accessories that were born to enhance your experience, and beachwear that says you're more than just a passenger on the ride of life. Embody excitement on and off the water with the complete Sea-Doo riding gear, parts and accessories line-up, coming to your local Sea-Doo dealer and online at store.sea-doo.com in January 2016.

XPS

MAKE THE RIGHT CHOICE.

BRP's commitment to quality means that every watercraft is engineered to the highest industry leading standards. By using genuine BRP maintenance parts, you are taking care of your investment. There's an XPS product that cleans, others that lubricate or stabilize, some that cool and yet others that extend life. Some do only one, others more, but whatever they do they do exceptionally well. And they all provide complete peace of mind where it matters most. Out there.

AFTER ALL, YOU ONLY GET OUT WHAT YOU PUT IN... IF YOU'RE CHOOSING ANYTHING OTHER THAN XPS, YOU'RE NOT PUTTING INTO YOUR SEA-DOO WATERCRAFT WHAT YOU EXPECT TO GET OUT OF IT. THE ABSOLUTE BEST.

XPS. MORE THAN JUST OIL.

Products are distributed in the USA by BRP US Inc. †GTX is a registered trademark of Castrol Limited used under license. ∞All other trademarks are the property of their respective owners. BRP reserves the right at any time to discontinue or change specifications, prices, designs, features, models or equipment without incurring obligation. Watercraft performance may vary depending on, among other things, general conditions, ambient temperature, and altitude, riding ability and rider/passenger weight. All product comparisons, industry and market claims refer to new sit down PWC with 4-stroke engines. Testing of competitive models done under identical conditions. Performance number achieved under optimal testing conditions. Some models shown may depict optional accessories. Some pictures depicted in this brochure include professional riders and wakeboarders executing maneuvers under ideal and/or controlled conditions. Do not attempt any of these, or any other risky maneuvers, if they're beyond your level of riding or wakeboarding ability, as well as your understanding and respect for the performance of your personal watercraft. Always consult your PWC dealer when selecting a watercraft for your particular needs, and carefully read and pay attention to your Operator's Guide, Instructional Video, and the on-product labeling on your personal watercraft. Always drive responsibly and safely. Severe injury can result from ignoring warnings, not following the instructions or improper use of watercraft and related products. Use common sense and courtesy. Always observe applicable local laws and regulations. Respect the rights of, and keep a safe distance from, other recreationists and/or bystanders. Always wear the appropriate protective clothing, including a Coast Guard-approved P.F.D. as dictated by the circumstances including, but not limited to, the weather, boating conditions and age and abilities of the occupants. Don't operate your watercraft under the influence of drugs or alcohol. Always observe applicable laws and regulations.

Protect your watercraft with the B.E.S.T. Protection Plan out there! By being a member of these important industry associations, we recognize and support their efforts in sharing the responsibility of promoting the growth of our sport. Sea-Doo watercraft riders know that riding responsibly and safely is always more fun. Smart Sea-Doo riders wear appropriate protective clothing and never drink and ride. Always ride keeping a substantial distance between yourself and others. Every Sea-Doo watercraft comes with a safety/instructional video and an operator's guide as standard equipment.

THE WORLD IS OUR PLAYGROUND

Nothing is more valuable than your playtime. That is why BRP is dedicated to continually finding new and better ways to help you enjoy your favorite powersports. From snow to water to both on- and off-road fun, our passion for adventure fuels the innovations that result in the ultimate powersports experience for our customers. We value the land and water we play on and are committed to protecting it. Our desire to thrill is paired with an emphasis on rider responsibility, placing personal safety above all else. So that each outing can be the most enjoyable, memorable and thrilling experience possible. Because your free time should always be your best time.
